About O*NET

The O*NET program is the nation's primary source of occupational information. Central to the project is the O*NET database, containing information on hundreds of standardized and occupation-specific descriptors. The database, which is available to the public at no cost, is continually updated by surveying a broad range of workers from each occupation. Information from this database forms the heart of O*NET OnLine, an interactive application for exploring and searching occupations. The database also provides the basis for our Career Exploration Tools, a set of valuable assessment instruments for workers and students looking to find or change careers.

The Occupational Information Network (O*NET) is being developed under the sponsorship of the **US Department of Labor/Employment and Training Administration (USDOL/ETA)** through a grant to the North Carolina Employment Security Commission.

Log on today and learn more about a career in Cosmetology and or Manicure
